

# A U.S. – Japan Workshop on the Tropical Tropopause Layer: State of Current Science and Future Observational Needs

October 15 – 19, 2012

East-West Center, Honolulu, Hawaii

## CALL FOR YOUNG SCIENTIST APPLICATIONS – DUE 1 JULY 2012

We invite applications for students and post-doctoral fellows to attend this workshop that will review the current state of knowledge about this most important region of the atmosphere, define outstanding science questions, and explore plans for cooperative measurement campaigns that can provide the data necessary to answer these science questions. For more information, please see the announcement and web pages at <http://physics.valpo.edu/ttlworkshop>.

Priority will be given to young scientists who would benefit most from a better understanding of the Tropical Tropopause Layer for their current and future research. Young scientists receiving travel support will bring and present a poster describing their own research and be an active participant in workshop discussions.

To apply, please send the following materials to [TTLWorkshop2012@gmail.com](mailto:TTLWorkshop2012@gmail.com), by 1 July 2012:

- Name and Contact Information with current institutional affiliation
- Advisor/Mentor name and affiliation
- Title and Abstract for a Poster: this should be a 1 paragraph description of a current or planned research project
- A description of how your research will benefit from attendance at the workshop (no more than 1 page)

Decisions will be announced by 15 July 2012.

**FUNDING:** Funding is limited. This workshop is sponsored by the Catalyzing New International Collaborations program of the National Science Foundation (Award #1158805). Any opinions, findings and conclusions or recommendations expressed in this material are those of the author(s) and do not necessarily reflect the views of the National Science Foundation (NSF). In kind contributions are provided by Valparaiso University and the International Pacific Research Center.
